Closing remarks

Luka Onesti

Chief Technology Officer, ESTECO

Celebrating the community

Continuous commitment

Although sectors such as **Aerospace and Defence, Automotive and Transportation and Marine** were early adopters of Simulations and Analysis, the drive to evolving their application of innovative technologies persists.

GE aerospace

Dumarey

JLR

Luna Rossa

Fincantieri

Casappa

Avio

Leonardo Aircraft

MBDA

Honda Development
and Manufacturing
of America

LIFT

Cummins

Ferrari

Stellantis

Cimes France

CT Ingegnerie

Closing the gap

The fields of **Electronics, Chemical, and Energy** increasingly rely on sophisticated simulation methodologies and technologies, catching up with the other industries.

Micron Memory

Hitachi Energy

SLB

NextChem
